Springer International

Oecologia

Derived from *"Zeitschrift für Morphologie und Ökologie der Tiere", Oecologia* was founded in 1968, volumes (1968–1982), and edited by H. Remmert. As of volume 53 (1982) the journal has been edited by both H. Remmert and E.-D. Schulze. As of volume 81 (1989) the journal has been edited by J.R. Ehleringer, Salt Lake City; C.H. Peterson, Morehead City; H. Remmert, Marburg; E.-D. Schulze, Bayreuth. As of volume 83 (1990) the journal has been edited by J.R. Ehleringer, Salt Lake City; C.H. Peterson, Morehead City; M. Schaefer, Göttingen; E.-D. Schulze, Bayreuth.

Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that it is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, if any, as well as by the responsible authorities at the institute where the work has been carried out; that, if and when the manuscript is accepted for publication, the authors agree to automatic transfer of the copyright to the publisher; and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), as well as all translation rights. No material published in this journal may be reproduced photographically or stored on microfilm, in electronic data bases, video disks, etc., without first obtaining written permission from the publisher.

The use of general descriptive names, trade names, trademarks, etc., in this publication, even if not specifically identified, does not imply that these names are not protected by the relevant laws and regulations.

While the advice and information in this journal is believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

Special regulations for photocopies in the USA: Photocopies may be made for personal or in-house use beyond the limitations stipulated under Section 107 or 108 of U.S. Copyright Law, provided a fee is paid. This fee is US $0.20 per page, or a minimum of US $1.00 if an article contains fewer than five pages. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0029-8549, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.

Contents

Agrell J → Sandell M
Akçakaya HR → Arditi R
Akimoto S: Local adaptation and host race formation of a gall-forming aphid in relation to environmental heterogeneity 162
Aldrich JH → Brodbeck BV
Alkon PU → Brown JS
Allison TD: The influence of deer browsing on the reproductive biology of Canada yew (*Taxus canadensis* marsh.). I. Direct effect on pollen, ovule, and seed production 523
Allison TD: The influence of deer browsing on the reproductive biology of Canada yew (*Taxus canadensis* marsh.). II. Pollen limitation: an indirect effect 530
Andersen PC → Brodbeck BV
Andersson S: The relationship between seed dormancy, seed size and weediness, in *Crepis tectorum* (Asteraceae) 277
Anholt BR: Size-biased dispersal prior to breeding in a damselfly 385
Arditi R, Akçakaya HR: Underestimation of mutual interference of predators 358
Attiwill PM → Weston CJ

Bamberg IE → Coughenour MB
Baughman JF, Murphy DD, Ehrlich PR: A reexamination of hilltopping in *Euphydryas editha* 259
Belovsky GE → Ritchie ME
Black AR, Dodson SI: Demographic costs of *Chaoborus* -induced phenotypic plasticity in *Daphnia pulex* 117
Bond WJ → Dean WRJ
Bondrup-Nielsen S → Heske EJ
Bongers T: The maturity index: an ecological measure of environmental disturbance based on nematode species composition 14
Briggs MA: Chemical defense production in *Lotus corniculatus* L. I. The effects of nitrogen source on growth, reproduction and defense 27
Briggs MA, Schultz JC: Chemical defense production in *Lotus corniculatus* L. II. Trade-offs among growth, reproduction and defense 32
Brodbeck BV, Mizell RF III, French WJ, Andersen PC, Aldrich JH: Amino acids as determinants of host preference for the xylem feeding leafhopper, *Homalodisca coagulata* (Homoptera: Cicadellidae) 338
Brown JS, Alkon PU: Testing values of crested porcupine habitats by experimental food patches 512
Bucher TL → Chappell MA
Butler M → Dionne M
Byers S, Vinyard GL: The effects on the plankton community of filter-feeding Sacramento blackfish, *Orthodon microlepidotus* 352

Case TJ: Patterns of coexistence in sexual and asexual species of *Cnemidophorus* lizards 220
Chamberlain S → Ziska LH
Chappell MA, Morgan KR, Bucher TL: Weather, microclimate, and energy costs of thermoregulation for breeding Adélie Penguins 420
Colgan PW → Thompson ID
Conover DO, Present TMC: Countergradient variation in growth rate: compensation for length of the growing season among Atlantic silversides from different latitudes 316
Cortwright SA, Nelson CE: An examination of multiple factors affecting community structure in an aquatic amphibian community 123
Coughenour MB, Detling JK, Bamberg IE, Mugambi MM: Production and nitrogen responses of the African dwarf shrub *Indigofera spinosa* to defoliation and water limitation 546
Cushman JH → Martinsen GD

Dean WRJ, Bond WJ: Evidence for rapid faunal changes on islands in a man-made lake. I. Ants 388
Den Boer PJ: On the stabilization of animal numbers. Problems of testing. 3. What do we conclude from significant test results? 38
Denno RF → Krischik VA
Detling JK → Coughenour MB
Dill LM, Fraser AHG, Roitberg BD: The economics of escape behaviour in the pea aphid, *Acyrthosiphon pisum* 473
Dionne M, Butler M, Folt C: Plant-specific expression of antipredator behaviour by larval damselflies 371
Dixon AFG, Kindlmann P: Role of plant abundance in determining the abundance of herbivorous insects 281
Dodson SI → Black AR
Douglas-Hamilton I → Prins HHT
Drake BG → Ziska LH
Duffy JE: Amphipods on seaweeds: partners or pests? 267
Duke JT → Ultsch GR
Dunn JP, Potter DA, Kimmerer TW: Carbohydrate reserves, radial growth, and mechanisms of resistance of oak trees to phloem-boring insects 458

Ehleringer JR → Zimmerman JK
Ehrlich PR → Baughman JF
Eisenbach J → Fox LR
Erlinge S → Sandell M

Fiedler K: Effects of larval diet on myrmecophilous qualities of *Polyommatus icarus* caterpillars (Lepidoptera: Lycaenidae) 284
Finck P: Seasonal variation of territory size with the Little Owl (*Athene noctua*) 68
Fisher BL, Sternberg LdaSL, Price D: Variation in the use of orchid extrafloral nectar by ants 263
Foin TC → Platenkamp GAJ
Folt C → Dionne M
Forbes VE, Lopez GR: The role of sediment type in growth and fecundity of mud snails (Hydrobiidae) 53
Fox LR, Letourneau DK, Eisenbach J, Van Nouhuys S: Parasitism rates and sex ratios of a parasitoid wasp: effects of herbivore and plant quality 414
Frantz DP → Wagner MR
Fraser AHG → Dill LM
French WJ → Brodbeck BV
Fry JD: Evolutionary adaptation to host plants in a laboratory population of the phytophagous mite *Tetranychus urticae* Koch (*Erratum*) 568

Gallagher ED, Gardner GB, Jumars PA: Competition among the pioneers in a seasonal soft-bottom benthic succession: field experiments and analysis of the Gilpin-Ayala competition model 427
Gardner GB → Gallagher ED
Gerell R, Lundberg K: Sexual differences in survival rates of adult pipistrelle bats (*Pipistrellus pipistrellus*) in South Sweden 401
Giddins R → Robertson AI
Gliwicz J: The first born, their dispersal, and vole cycles 519
Gotceitas V: Foraging and predator avoidance: a test of a patch choice model with juvenile bluegill sunfish 346
Graves JD: A model of the seasonal pattern of carbon acquisition in two woodland herbs, *Mercurialis perennis* L. and *Geum urbanum* L. 479
Grulke NE, Riechers GH, Oechel WC, Hjelm U, Jaeger C: Carbon balance in tussock tundra under ambient and elevated atmospheric CO_2 485

Haderspeck W, Hoffmann KH: Effects of photoperiod and temperature on development and reproduction of Hydromedion sparsutum (Müller) (Coleoptera, Perimylopidae) from South Georgia (Subantarctic) 99
Haim A, Van Aarde RJ, Skinner JD: Metabolic rates, food consumption and thermoregulation in seasonal acclimatization of the Cape porcupine *Hystrix africaeaustralis* 197
